This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. REPORT

OF

THE COMMISSIONER OF INTERNAL REVENUE.

TREASURY DEPARTMENT,
OFFICE OF INTERNAL REVENUE,
Washington, D. C., November 1, 1894.

SIR: In accordance with the instructions contained in your letter of August 23, 1894, I have the honor to respectfully submit the following report of the operations of the Bureau of Internal Revenue for the fiscal year ended June 30, 1894, together with certain additional information relating to the collections made and work performed during the months of July, August, and September of the current fiscal year.

The titles of the tables found at the close of the bound volume of this report are as follows:

Table A, showing the receipts from each specific source of internal revenue and the amounts refunded in each collection district, State, and Territory of the United States for the fiscal year ended June 30, 1894.

Table B, showing the number and value of stamps for special taxes, manufactured tobacco, snuff, cigars, cigarettes, distilled spirits, fortified sweet wine, fortified wine for export, fermented liquors, oleomargarine, and opium manufactured for smoking purposes; also the number of the different kinds of certificates of registry, with the number and value of documentary stamps used for validating unstamped instruments, issued to collectors of internal revenue during the fiscal year ended June 30, 1894.

Table C, showing the percentages of receipts from the several general sources of internal revenue now taxable in each State and Territory of the United States to the aggregate receipts from the same sources, by fiscal years, from July 1, 1863, to June 30, 1894.

Table D, showing the aggregate receipts of internal revenue in each collection district, State, and Territory of the United States, by fiscal years, from September 1, 1862, to June 30, 1894.

Table E, showing the receipts from specific and general sources of internal revenue, by fiscal years, from September 1, 1862, to June 30, 1894.

Table F, showing the ratio of receipts from specific sources of internal revenue to the aggregate receipts of the same, by fiscal years, from July 1, 1863, to June 30, 1894.

Table G, showing the returns of distilled spirits, fermented liquors, manufactured tobacco, snuff, cigars, and cigarettes, under the several acts of legislation and by fiscal years, from September 1, 1862, to June 30, 1894; also statement of the production of distilled spirits and fermented liquors in the several States and Territories, by fiscal years, from July 1, 1877, to June 30, 1894.

Table H, showing the receipts from special taxes in the several States and Territories for the twelve months ended June 30, 1894.

Table I. Abstract of reports of district attorneys concerning suits and prosecutions under the internal-revenue laws during the fiscal year ended June 30, 1894.

Table K. Abstract of seizures of property for violation of internal-revenue laws during the fiscal year ended June 30, 1894.

Table L, showing the collections, expenses, and percentage cost of collection in the several collection districts during the fiscal years ended June 30, 1893 and 1894.

COLLECTIONS FOR THE CURRENT FISCAL YEAR.

After a careful examination, I estimate that the total receipts from all sources of internal revenue for the current fiscal year will amount to $171,000,000.

RECEIPTS FOR THE PAST NINE FISCAL YEARS.

Fiscal year ended—	
June 30, 1894	$147,168,449.70
June 30, 1893	161,004,989.67
June 30, 1892	153,857,544.35
June 30, 1891	146,035,415.97
June 30, 1890	142,594,696.57
June 30, 1889	130,894,434.20
June 30, 1888	124,326,475.32
June 30, 1887	118,837,301.06
June 30, 1886	116,902,869.44

COLLECTIONS FOR THE FISCAL YEAR ENDED JUNE 30, 1894.

In my last annual report I estimated that the receipts of this Bureau for the fiscal year ended June 30, 1894, would aggregate $150,000,000. Throughout the entire year the financial depression tended to materially reduce the receipts from all sources of internal taxation, and it is with much regret that I am compelled to state that the receipts fell short of the estimate in the sum of $2,831,550.30, the actual collections being $147,168,449.70.

The following tables exhibit in detail the amount of internal revenue collected during the fiscal year ended June 30, 1894, the sources which yielded the revenue, the total sums collected in each collection district, State and Territory, the cost of collecting, etc.:

COST OF COLLECTION.

The cost of collection for the past fiscal year, distributed among the different items of appropriation, was approximately as follows:

For salaries and expenses of collectors, including pay of deputy collectors, clerks, etc., and including expenses incident to enforcing the provisions of law taxing oleomargarine, and the provisions of the act of October 1, 1891, relating to the payment of bounty on sugar		$1,861,206.97
For salaries and expenses of revenue agents, surveyors of distilleries, gaugers, storekeepers, and miscellaneous expenses		1,881,335.86
For salaries and expenses of sugar inspectors		24,749.28
For paper for internal-revenue stamps		58,619.18
For expenses of detecting and punishing violations of internal-revenue laws		24,897.79
For salaries of officers, clerks, and employés in the office of Commissioner of Internal Revenue		267,486.50
Total amount expended		4,118,295.58
Deduct expenses relating exclusively to the payment of bounty on sugar, as follows:		
Additional deputies and clerks	$96,229.83	
Polariscopes and articles used in making analyses of sugar, etc	591.74	
Salary and expenses of sugar inspectors	24,749.28	
Additional clerks in office of Commissioner	8,570.00	
Amount paid out under Chinese exclusion act	8,933.84	
Amount paid out for fortification of sweet wines	3,316.89	
		142,391.58
Leaving the net cost of collection		3,975,904.00

The percentage of the cost of collection is 2.70 per cent. The expenses for the previous fiscal year were $4,219,739.36, being 2.62 per cent of the collections, showing a slight increase of percentage of cost over the previous fiscal year.

The amount appropriated for the purpose of detecting and bringing to punishment persons guilty of violating the internal-revenue laws, for 1894, was $25,000. This amount has been more than exhausted by the claims already presented to this office for payment. It will therefore be necessary to ask for an additional appropriation of $500.

AMOUNT EXPENDED UNDER "CHINESE EXCLUSION ACT," 1893–'94.

By the act approved November 3, 1893, to prohibit the coming of Chinese persons into the United States, the duty of registering Chinese laborers was imposed upon this Bureau. This work was completed on May 3, 1894, and the total number of registration certificates applied for was 106,811. The total sum appropriated for this work was $60,000, and the total amount expended up to the close of the fiscal year ended June 30, 1894, was $42,899.36, leaving unexpended on the 1st day of July, 1894, $17,100.64.

MISCELLANEOUS EXPENSES.

The act of Congress approved August 7, 1882, making provision for sundry civil expenses for the year ending June 30, 1883, required the Commissioner of Internal Revenue to make a detailed statement of all miscellaneous expenditures in the Bureau of Internal Revenue for which appropriation was made in that act. In accordance with this

requirement, I submit the following detailed statement of miscellaneous expenses incurred:

Telegraphing on public business	$507.84
Locks for use at distilleries	3,592.95
Hydrometers used in gauging spirits	7,266.85
Weighing beams for use in weighing spirits	2,344.25
Expenses of testing spirits weighed, labor, etc	122.88
Steel letters for numbering stills	14.75
Saccharometers, and chemicals for testing sweet-wine samples and oleomargarine	163.18
Stationery for internal-revenue officers	282.51
The Internal Revenue Record supplied to internal-revenue officers	2,200.00
The Federal Reporter for the office of the Commissioner of Internal Revenue	17.50
Compensation of United States attorneys in internal-revenue cases allowed under sections 827 and 838, Revised Statutes	550.00
Traveling expenses of clerks and chemist under special orders of the Department	347.76
Expenses of seizures and sales by collectors	260.38
Total	17,670.85

ESTIMATED EXPENSES FOR NEXT FISCAL YEAR.

I estimate the expenses of the Internal-Revenue Service for the fiscal year ending June 30, 1896, as follows:

For salaries and expenses of collectors, including pay of deputy collectors and clerks, and expense of enforcing the act of August 2, 1886, taxing oleomargarine, and the act of August 4, 1886, imposing on the Government the expense of the inspection of tobacco exported	$1,817,500
Supplemental	423,600
For salaries and expenses of twenty revenue agents, for surveyors, for fees and expenses of gaugers, for salaries of storekeepers, and for miscellaneous expenses	2,150,000
Supplemental	36,000
For paper for internal-revenue stamps	65,000
For detecting and bringing to trial and punishment persons guilty of violating the internal-revenue laws, including payment for information and detection	75,000
For salaries of officers, clerks, and employés in the office of the Commissioner of Internal Revenue	262,180
Supplemental	30,590
Total	4,859,870

SALARIES.

I have the honor to recommend that Congress appropriate for the fiscal year ending June 30, 1896, the sum of $262,180, and $30,590 supplemental, as salaries for the following officers, clerks, and employés in this bureau:

One Commissioner, at	$6,000
One deputy commissioner, at	3,200
One chemist, at	2,500
One statistician, at	2,500
Two heads of division, at	2,500
Seven heads of division, at	2,250
One superintendent of stamp vault, at	2,000
One stenographer, at	1,800
Twenty-four clerks, at	1,800
Twenty-four clerks, at	1,600
Forty clerks, at	1,400

Thirty-two clerks, at	$1,200
Twenty-one clerks, at	1,000
Forty clerks, at	900
Four messengers, at	840
Fourteen assistant messengers, at	720
Thirteen laborers, at	660

An aggregate of 227 persons.

I also recommend the appropriation of the sum of $2,500 as salaries for one stamp agent at $1,600 and one counter at $900, the same to be reimbursed by the stamp manufacturers, as provided by the act of August 5, 1882.

SCALE OF SALARIES OF COLLECTORS.

The recommendations made for the salaries of collectors are based upon an estimate of their probable collections according to the following scale, with the qualification that if the actual collections should vary from the amounts estimated the salaries will be readjusted at the end of the fiscal year:

For collection of—	Salary.	For collection of—	Salary.
$25,000 or less	$2,000	$375,001 to $425,000	$3,375
25,001 to $37,500	2,125	425,001 to 475,000	3,500
37,501 to 50,000	2,250	475,001 to 550,000	3,625
50,001 to 75,000	2,375	550,001 to 625,000	3,750
75,001 to 100,000	2,500	625,001 to 700,000	3,875
100,001 to 125,000	2,625	700,001 to 775,000	4,000
125,001 to 175,000	2,750	775,001 to 850,000	4,125
175,001 to 225,000	2,875	850,001 to 925,000	4,250
225,001 to 275,000	3,000	925,001 to 1,000,000	4,375
275,001 to 325,000	3,125	1,000,001 and upward	4,500
325,001 to 375,000	3,250		

OFFICIAL FORCE.

The force connected with this Bureau during the fiscal year which ended June 30, 1894, in the various districts throughout the United States, as reorganized under the executive order of May 21, 1887, was 63 collectors, who received per annum salaries as follows:

Number.	Salary.	Number.	Salary.	Number.	Salary.
36	$4,500	1	$3,875	2	$3,250
1	4,375	1	3,750	1	3,125
1	4,250	2	3,625	1	2,875
1	4,125	6	3,500	6	2,750
2	4,000	1	3,375	1	2,625

There were also employed 963 deputy collectors, who received per annum salaries as follows:

Number.	Salary.	Number.	Salary.	Number.	Salary.
22	$2,000	34	$1,300	9	$500
11	1,900	169	1,200	1	480
33	1,800	127	1,100	1	425
1	1,750	136	1,000	11	400
10	1,700	2	950	4	360
31	1,600	64	900	27	300
2	1,550	4	850	3	250
59	1,500	23	800	2	240
9	1,450	1	750	7	200
119	1,400	5	700	4	150
1	1,350	25	600	6	120

There were also employed in the offices of the different collectors 185 clerks, who received per annum salaries as follows:

Number.	Salary.	Number.	Salary.	Number.	Salary.
1	$1,800	8	$1,150	9	$700
2	1,600	6	1,100	2	650
3	1,500	30	1,000	11	600
9	1,400	34	900	1	500
4	1,300	18	800	1	400
1	1,250	5	750		
38	1,200	2	720		

Also 30 porters, messengers, or janitors, who received per annum salaries as follows:

Number.	Salary.	Number.	Salary.	Number.	Salary.
6	$600	1	$360	1	$180
3	500	3	300	2	120
5	480	1	240	3	100
4	400	1	200		

In addition to the foregoing there were also employed for limited periods 409 persons in duties solely connected with the execution of the provisions of the act of October 1, 1890, relating to the payment of bounty on sugar produced, as shown more in detail in that part of this report relating to that subject.

At the close of the year ended June 30, 1894, 207 officers, clerks, messengers, and laborers were employed in this Bureau, and the aggregate amount paid during the year for their salaries was $267,486.50.

STOREKEEPERS, GAUGERS, ETC.

There were also employed 696 gaugers, who received fees not to exceed $5 per day; 546 storekeepers, and 1,234 storekeepers, and gaugers, whose pay did not exceed $4 per diem, and 6 distillery surveyors. All the foregoing officers are paid only when actually employed.

Storekeepers are assigned to those distilleries only which have a surveyed daily capacity of 100 bushels or more, and are paid such compensation as may be prescribed by the Commissioner of Internal Revenue, not to exceed $4 per day.

The pay of storekeeper and gaugers assigned to distilleries whose registered daily capacity is 20 bushels or less is fixed by law at $2 per diem. The pay of those assigned to larger distilleries has been graded according to the following scale:

Compensation for storekeeper and gaugers assigned to distilleries having a surveyed daily capacity exceeding 20 bushels and not exceeding 40 bushels, $3 per day; compensation of those assigned to distilleries having a surveyed daily capacity exceeding 40 bushels and not exceeding 60 bushels, $3.50 per day; compensation of those assigned to distilleries having a surveyed daily capacity exceeding 60 bushels, $4 per day.

GENERAL CONDITION OF THE OFFICE AND THE SERVICE.

The work of this Bureau is in good condition, both in this office and in the field. It affords me great pleasure to commend the efficiency, industry, and competency of the officers, clerks, and employés in every branch of the service, which is evidenced by the prompt and accurate disposal of all business of the Bureau up to date.

Examinations have been made of the offices of the several collectors of internal revenue as frequently during the fiscal year as was possible with the limited force of revenue agents at my command, and the condition in which these offices were found and reported justifies the conclusions above set forth.

The accounts for expenditures under this appropriation are rendered monthly, with an itemized statement, and in all cases supported by proper subvouchers duly sworn to. These accounts pass through all the accounting offices in the Treasury Department and are filed in the Register's office.

INTERNAL-REVENUE INSPECTORS.

In accordance with the provisions of legislative act of March 3, 1891, authorizing the Commissioner of Internal Revenue to employ not to exceed twelve inspectors whose duty shall be to inspect sugar upon which a bounty is required to be paid, and to perform such other duties as may be required by the Commissioner, twelve inspectors have been employed during the past year, at a compensation of $5 per day while actually and necessarily employed and their necessary traveling expenses.

These inspectors have been employed most of the time in connection with the payment of bounty on domestic sugar, and have been assigned as follows:

Districts of Kansas, Nebraska, and Montana	1
First district of California	1
Districts of Louisiana, Texas, and Florida	10

During the maple-sugar season inspectors were employed in connection with inspection and classification of maple sugar upon which bounty was claimed in the following districts:

Districts of New Hampshire, and Massachusetts	2
Fourteenth, twenty-first, and twenty-eighth districts of New York	1
Twelfth, and twenty-third districts of Pennsylvania	1
Tenth, and eighteenth districts of Ohio and first and fourth Michigan	1

In the cane-sugar-producing districts it was found necessary to employ some of the inspectors during the entire year. In the beet and sorghum producing districts they were employed from three to five months, and in the districts where maple sugar is produced their services were required about three months.

When not occupied with duties as sugar inspectors they were employed with revenue agents on general duty in connection with the internal-revenue service.

EXPENSES OF REVENUE INSPECTORS.

The appropriation for the payment of salaries and expenses of inspectors was $25,000. The following expenditures chargeable to that appropriation have been made during the year:

Aggregate salary of inspectors	$15,470.00
Aggregate amount of traveling expenses	9,135.30
Transportation over Pacific railroads	143.98
Total	24,749.28

REDEMPTION OF CHECK AND PROPRIETARY STAMPS.

Since July 1, 1893, and up to June 30, 1894, 72 applications for redemption of check and proprietary stamps have been received for consideration, the sums stated varying from 10 cents to $22.96, and the different values amounting in the aggregate to $187.01. The time allowed by law for the redemption of these classes of stamps having expired by limitation June 30, 1886, the claims were rejected and the stamps forwarded therewith were returned to the applicants.

At the close of the last fiscal year there were remaining 78 packages of check and proprietary stamps undisposed of. These packages are made up of cases incomplete as to data, some containing stamps without claims, and others claims unaccompanied by stamps. None of the old claims have been disposed of, and are chiefly those for which no clue to ownership can be obtained. Inasmuch as these claims have been carried upon the reports from year to year, it is recommended that some disposition be made of them in order that they may be omitted from future reports of this office.

PRODUCTION OF STAMPS.

The Bureau of Engraving and Printing prints and supplies all of the internal-revenue stamps used, with the exception of stamps for tobacco imprinted on foil wrappers, which have been printed and furnished by the John J. Crooke Company, of New York, under a

contract which provides that the imprinting of such stamps shall be without cost to the Government, the contractor receiving such remuneration from the manufacturers of tobacco as may be agreed upon between them, and reimbursing to the Government the salaries of one stamp agent for the United States and one counter, amounting to $2,500 per annum.

MANUFACTURE OF STAMP PAPER.

After due advertisement for proposals to furnish paper for the fiscal year ending June 30, 1895, to be used in the printing of United States internal-revenue stamps, ten bids were presented. The bids were opened on the 5th day of April, 1894, and after proper consideration of the same—the customary and usual tests of the various samples of paper submitted with the bids having been made—the contract for supplying the paper was awarded on the 6th day of April, 1894, to Messrs. Alexander Balfour & Sons, of Philadelphia, Pa., at the rate of 5 cents per pound, including expenses for its transportation and delivery at the Treasury Department, this being a reduction of 1 cent from the former contract price, which was 6 cents per pound. The advertisement for the proposals stated that the quantity of paper likely to be required for the ensuing year would be about 800,000 pounds. It is now apparent by the regular annual increase of the demand for the several classes of stamps that the amount of paper required will be 1,000,000 pounds. The manufacture of paper under the contract with Messrs. Balfour & Sons was commenced on the 1st day of September, 1894.

OFFICIAL COUNT OF STAMPS IN VAULT.

In accordance with instructions contained in Department letter of December 9, 1893, appointing a committee to make an inventory of the internal-revenue stamps in the vaults of the stamp division, the committee reported and took possession of the vaults at 9 o'clock on the morning of December 27, 1893, with a force of 2 clerks, 35 expert counters, and 20 packers and laborers selected from different offices of the Department, and proceeding at once with the count, completed the work on January 3, 1894. They reported the balances found by actual count to agree in every respect with the balances reported by the superintendent of the vault and the statement of balances called for by the books in the office of the Secretary, all of which were verified by the count and found to be absolutely correct. The following summary of transactions illustrates the extensive and responsible work performed in the stamp division in the past year.

There were on hand December 27, 1892, when the previous count was made, 64,813,844 stamps (value, $22,604,460). From that date to December 27, 1893, there were received from the Bureau of Engraving and Printing (and from collectors of internal revenue for re-issue) 1,011,707,280 stamps (value, $182,195,719), making the total to be accounted for 1,076,521,124 stamps (value, $204,800,179).

There were delivered for issue, reissue, and destruction during the period named 972,130,402 stamps (value, $169,249,011), leaving a balance to be accounted for on the morning of December 27, 1893, of 104,390,722 stamps (value, $35,551,167.87), which by actual count were found to be in the vaults on that date.

The committee, in closing their report, state that they feel justified in emphasizing the fact that these extensive operations, involving the

receipt, custody, and issue of more than one billion stamps, have been conducted without loss to the Government, a result which indicates the highest degree of efficiency on the part of the officers and employés charged with this responsible duty, and that the checks and safeguards adopted by the Department to insure accuracy and proper accountability in the receipt and issue of stamps are well calculated to secure that result.

STOCK OF STAMPS IN VAULT.

The present stock of stamps in the vaults of this Bureau does not come up to the requirements of the statute and is inadequate to meet the demands of the service. It is estimated that the three months' supply which the statute requires to be in the vault should be 300,000,000 stamps of the various classes and denominations. The stock on hand in the vault to October 9, 1894, is only 96,296,482 stamps of all denominations. The inability to maintain the stock at the statutory requirement is due to the failure of the Bureau of Engraving and Printing to fill the orders from this Bureau as called for. There are now due from the Bureau of Engraving and Printing on past orders 140,452,100 stamps, and orders for November delivery amount to 97,848,000 stamps.

I am pleased to state, however, that the deliveries from the Bureau are gradually increasing, and it is believed that within a short time the stock of stamps in the vault will be brought up to the statutory requirement.

Under the provisions of an act passed August 28, 1894, imposing a tax on playing cards, this Bureau has issued 12,505,000 "stock on hand" stamps, and 6,057,000 stamps for manufacturers, up to and including October 9.

REGISTRATION OF CHINESE.

Under the provisions of the amendatory act of November 3, 1893, certificates of residence of Chinese laborers and other than laborers entitled to remain in the United States before the passage of the original act of May 5, 1892, are required to be issued by this office. The total number of certificates so issued on applications received up to and including May 3, 1894, was 106,811.

TOBACCO DIVISION.

The aggregate amount of taxes collected from tobacco during the last fiscal year was $28,617,898.62. This amount includes internal-revenue taxes paid by stamps on imported and manufactured tobacco, snuff, cigars, and cigarettes.

The net decrease of collections for the last fiscal year, as compared with those of the previous fiscal year, was $3,271,813.12. The increase from cigarettes was $4,050.64, of which $3,440.53 was on cigarettes weighing not over 3 pounds per thousand, and $610.11 was on cigarettes weighing over 3 pounds per thousand. The decrease from the following-named articles was:

Cigars and cheroots	$2,241,839.05
Tobacco, chewing and smoking	1,016,876.60
Snuff	17,148.11
Total	3,275,863.76
Deduct increase, cigarettes	4,050.64
Net decrease of collections	3,271,813.12

The export account shows an increase in the number of cigarettes exported of 3,778,040, a decrease in manufactured tobacco of 744,754 pounds, and a decrease in the number of cigars exported of 352,315.

COMPARATIVE STATEMENT.

The following exhibit shows in detail the receipts for the fiscal year ended June 30, 1894, from each particular source of the tobacco tax, as compared with those of the previous fiscal year:

RECEIPTS FROM TOBACCO AND SNUFF.

Manufactured tobacco	$14,127,108.31

THE TABULAR STATEMENTS.

In the tables annexed will be found statements showing the manner in which the manufacturing is distributed among the different States and districts, the number of persons and firms engaged in each of the two branches of manufacturing, the quantity of different kinds of materials used, and the quantity and kinds of product manufactured. These tables are compiled from the reports received from the collectors of internal revenue of the transactions of manufacturers in their several districts for the calendar year ended December 31, 1893, a period of time differing from the fiscal year ended June 30, 1894, which will account for any apparent discrepancies between them and the previous part of the report relating to tobacco.

About 1,700 cigar manufacturers qualified as tobacco manufacturers in order to lawfully put up and sell their scrap and waste tobacco as smoking tobacco. About 68 persons qualified and kept books as tobacco manufacturers solely for the purpose of lawfully dealing in the refuse scraps, clippings, cuttings, and waste, and pack this material in bulk and export most of it to foreign countries. Four firms have qualified as tobacco manufacturers solely for the purpose of making sheep wash and fertilizers from tobacco stems. The number of tobacco manufacturers who buy leaf and manufacture it is not over 800. About 50 of these manufacture over 1,000,000 pounds apiece, of whom 5 average over 10,000,000 pounds annually. Nearly 200 manufacture over 100,000 pounds and less than 1,000,000 each.

NOTE.—In the case of retail dealers in oleomargarine, the number of places where oleomargarine is sold or offered for sale is sometimes in excess of the number of persons who pay special taxes as retail dealers in oleomargarine. This is accounted for from the fact that one retail dealer in some cases pays more than one special tax for the privilege of offering oleomargarine for sale at more than one store or place of business.

COMPARATIVE STATEMENT OF DISTILLERIES REGISTERED AND OPERATED.

The whole number of grain distilleries registered during the fiscal year ended June 30, 1894, was 1,964, of which number 1,541 were operated.

The numbers registered and operated during the fiscal year ended June 30, 1893, were 1,798 and 1,617, respectively, showing an increase during the last fiscal year of 166 in the number registered and a decrease of 76 in the number operated.

Much the larger portion of the increase in the number registered occurred in the class of distilleries having the smaller capacities for the production of spirits, there having been an increase of 161 in the number of distilleries of this class registered, with a decrease of 25 in the number operated.

In the class of larger distilleries there was an increase of 5 only in the number registered, and a decrease of 51 in the number operated.

During the fiscal year ended June 30, 1893, there were registered 1,532 distilleries of the smaller class, varying in daily grain capacity from not over 5 to not over 60 bushels each, and of this number 1,359, or nearly 89 per cent, were operated.

Of the larger distilleries, having daily grain capacities varying from 60 bushels to several thousand bushels each, 266 were registered and 258, or 97 per cent, were operated.

During the fiscal year ended June 30, 1894, of the smallest distilleries 1,693 were registered and 1,334, or 78 + per cent, were operated.

Of the larger distilleries 271 were registered and 207, or 76 + per cent, were operated.

There were 12 rum distilleries registered and 12 operated, an increase of 1 in the number reported for the previous fiscal year.

There were 3,633 fruit distilleries registered and 3,595 operated, an increase of 453 in the number registered and of 480 in the number operated during the fiscal year.

The total number of grain, molasses, and fruit distilleries registered and operated during the year is 5,609 and 5,148, respectively.

There was an increase of 620 in the number of all kinds of distilleries registered and of 405 in the number of all kinds operated during the fiscal year ended June 30, 1894, as compared with the fiscal year ended June 30, 1893.

The average yield per bushel of grain was $\frac{87,340,897.}{*19,716,818.}$ = 4.42+gallons of spirits. The average yield per gallon of molasses was $\frac{1,864,595.}{*2,598,409.}$ = .717+of a gallon of rum.

*Two million eight hundred and seventy-eight thousand one hundred and twelve gallons of molasses were used for the production of spirits instead of rum; and their equivalent, estimated in bushels of grain, is added to the total grain in determining the yield per bushel of grain.

The quantity of grain used for the production of spirits during the fiscal year ended June 30, 1894 (19,716,818 bushels, including 447,706 bushels, which is the estimated equivalent of 2,878,112 gallons of molasses, used for the production of spirits), shows a decrease of 9,313,591 bushels from the amount used in the preceding fiscal year (29,030,409 bushels), and is 2,175,295 bushels less than the average (21,892,113 bushels, for the last ten years. The number of gallons of spirits produced from grain during the year (87,340,897 gallons) shows a decrease of 39,204,120 gallons from the product (126,545,017 gallons) for the year ended June 30, 1893, and is 5,871,448 gallons less than the average produced (93,212,345 gallons) for the last ten years.

The yield of spirits from each bushel of grain is 4.42+ gallons.

The yield for the two preceding years was 4.24+ gallons for 1892 and 4.35+ gallons for 1893.

The quantity of molasses used for the production of rum during the fiscal year (2,598,409 gallons) shows a decrease of 177,343 gallons from the quantity used in the previous year (2,775,752 gallons), and is 156,554 gallons more than the average (2,441,855 gallons) for the last ten years.

The quantity of rum distilled from molasses during the fiscal year (1,864,595 gallons) shows a decrease of 242,170 gallons from the product of the previous year (2,106,765 gallons), and is 17,552 gallons more than the average product (1,847,043 gallons) for the last ten years.

TABLE SHOWING THE SERIAL NUMBER, NAME OR NAMES OF THE DISTILLER, AND LOCATION OF EACH DISTILLERY WAREHOUSE IN THE UNITED STATES IN WHICH SPIRITS WERE HELD ON DEPOSIT IN THE FISCAL YEAR ENDED JUNE 30, 1894.

[NOTE.—In column No. 2 the letters indicate transactions during the fiscal year as follows: "D" indicates that spirits were deposited in the warehouse; "T" that they were withdrawn upon payment of the tax; "S" that they were withdrawn for scientific purposes or for the use of the United States; "E" that they were withdrawn for export; "M" that they were withdrawn for transfer to manufacturing warehouses, and "W" that spirits remained in the warehouse at the close of the year. The name and address stated in columns 1, 4, and 5 are those given by the storekeeper in his reports relative to the distillery warehouse. In column 6 the section of the State in which the warehouse is located is indicated by the letters used to designate points of the compass, except that the letter C indicates the central portion of the State.]

DECREASED WITHDRAWAL OF TAX-PAID SPIRITS.

The quantity of tax-paid spirits (87,087,618 gallons) withdrawn from distillery warehouses during the fiscal year ended June 30, 1894, is less than the quantity (97,424,825 gallons) withdrawn from distillery warehouses during the fiscal year ended June 30, 1893, by 10,337,207 gallons, the decrease being distributed among the different kinds known to the trade as follows:

	Gallons.
Decrease in withdrawals of—	
Bourbon whisky	2,387,125
Alcohol	1,774,683
Rum	125,792
Gin	172,101
High wines	293,834
Pure, neutral, or cologne spirits	3,084,996
Miscellaneous	2,752,319
Total decrease	10,590,850
Increase in—	
Rye whisky	253,643
Net decrease	10,337,207

If the quantity, 699,937 gallons (as stated by the Chief of the Bureau of Statistics), of exported domestic spirits reimported during the year upon payment of a customs duty equal to the internal-revenue tax be added, the quantity virtually withdrawn from distillery warehouses during the year ended June 30, 1894, is found to be 87,787,555 gallons, or 10,381,712 gallons less than during the year 1893, including the 744,442 gallons reimported and tax-paid during that year.

WITHDRAWAL OF PRODUCTS BY MONTHS.

The quantity of each month's product of spirits in warehouses July 1, 1893, which was withdrawn during the year ended June 30, 1894, is shown in the following statement:

[In taxable gallons.]

Product of—	In warehouse July 1, 1893.	Withdrawn during the year ended June 30, 1894.	Remaining in warehouse June 30, 1894.

SPIRITS LOST BY FIRE IN WAREHOUSES FOR THE LAST TWENTY-TWO YEARS.

The following statement shows the quantity of spirits lost in distillery warehouses by fire during each of the last twenty-two calendar years. As it shows also the stock of spirits in warehouse at the close of each of the fiscal years 1872 to 1893, both inclusive, the percentage of loss on stock held may be readily computed:

[Quantities in taxable gallons.]

THE REVENUE ACT OF AUGUST 28, 1894, AS TO THE INTERNAL-REVENUE TAX ON DISTILLED SPIRITS.

Under the provisions of the act of August 28, 1894, the tax on distilled spirits was increased from 90 cents to $1.10 per gallon and the bonded period was extended from three years to eight years. Although this act did not become a law until August 28, it was evident, at least as early as June, 1894, that the tax on distilled spirits would be increased. This fact explains the great increase in the tax-paid withdrawals of distilled spirits during July and August, 1894, as shown in the foregoing table, over those for the same months in July, 1893, and the decrease of such withdrawals during September, 1894, as compared with those for the same month in 1893. The heavy withdrawals made in June, July, and August, 1894, had the effect of overstocking the market with tax-paid spirits, as will more fully appear in the table on pages 158 and 159, causing a falling off in the tax-paid withdrawals during October and November, 1894. These known facts indicate that although the rate of tax on distilled spirits was materially increased by the act named, this act may not have the effect of proportionately increasing the revenue during the year ending June 30, 1895.

DISTILLED SPIRITS IN THE UNITED STATES OCTOBER 1, 1894.

The quantity of distilled spirits in the United States, except what may be in customs bonded warehouses, on the 1st day of October, 1894, was 179,285,745.8 gallons, this quantity being distributed as follows:

	Gallons.
In distillery warehouses	103,836,608.6
In special bonded warehouses	1,769,192.2
In hands of wholesale liquor dealers	30,596,145
In hands of retail liquor dealers	43,083,800
Total	179,285,745.8

In making the above computation the average stock of each retail liquor dealer in the United States is estimated at 200 gallons.

The table on page 152 shows the quantity of distilled spirits in taxable gallons, at 90 cents tax, placed in distillery warehouses during the fiscal year ended June 30, 1894, the quantity withdrawn therefrom during the year, and the quantity remaining therein or remaining unaccounted for at the beginning and close of the year:

OLEOMARGARINE.

The following statements, showing operations under the act of August 2, 1886, defining butter and imposing a tax upon and regulating the manufacture, sale, importation, and exportation of oleomargarine, comprise—

First. A summary of operations at oleomargarine manufactories during the fiscal year ended June 30, 1894; also a summary of operations during the past two fiscal years, and by months covering the period from November 1, 1886, to June 30, 1894.

Second. A statement of the receipts from all classes of taxes imposed by the oleomargarine law for the year ended June 30, 1894.

Third. A statement by States and Territories showing the number of establishments for which special tax was paid to carry on during the fiscal year ended June 30, 1894, the business of manufacturing and dealing in oleomargarine; also, in aggregate, of all persons who paid oleomargarine special taxes for the twelve months ended June 30, 1893.

Fourth. A statement of the total production and of total receipts from all oleomargarine sources for each fiscal year since the oleomargarine law took effect.

It appears from the subjoined table that the average monthly production of oleomargarine under the operations of the law has been as follows:

	Pounds.
During the eight months ended June 30, 1887	2,711,828
During the fiscal year ended June 30—	
1888	2,860,460
1889	2,972,002
1890	2,693,669
1891	3,699,367
1892	4,030,346
1893	5,602,024
1894	5,801,853

It also appears that the average monthly quantity withdrawn from factories on payment of the tax was as follows:

	Pounds.
During the eight months ended June 30, 1887	2,592,946
During the fiscal year ended June 30—	
1888	2,707,430
1889	2,821,970
1890	2,566,494
1891	3,601,292
1892	3,909,625
1893	5,371,989
1894	5,508,004

The average quantity withdrawn monthly for exportation during the same time is shown to have been as follows:

	Pounds.
During the eight months ended June 30, 1887	90,566
During the fiscal year ended June 30—	
1888	140,516
1889	145,746
1890	134,866
1891	102,426
1892	107,981
1893	232,124
1894	283,890

In the fiscal years 1887 and 1888 the largest production month was March; in the fiscal year 1889, December; in the fiscal year 1890, October; in the fiscal year 1891, March; in the fiscal year 1892, March; in the fiscal year 1893, January; while the greatest production during the fiscal year ended June 30, 1894, occurred in October, 1893. The quantity produced during these months was as follows:

	Pounds.
In March, 1887	3,568,254
In March, 1888	3,940,727
In December, 1888	4,181,317
In October, 1889	4,072,333
In March, 1891	6,723,224
In March, 1892	5,916,871
In January, 1893	7,824,657
In October, 1893	9,318,006

The months in which the production fell below 2,000,000 pounds were as follows:

	Pounds.
During the fiscal year ended June 30, 1887:	
May, 1887, produced	1,885,027
June, 1887, produced	1,375,428
During the fiscal year ended June 30, 1888:	
July, 1887, produced	1,208,638
During the fiscal year ended June 30, 1889:	
June, 1889, produced	1,575,362
During the fiscal year ended June 30, 1890:	
July, 1889, produced	1,404,749
August, 1889, produced	1,975,773
May, 1890, produced	1,864,746
June, 1890, produced	1,364,826
During the fiscal year ended June 30, 1891:	
July, 1890, produced	1,723,966
June, 1891, produced	1,988,633

There was an increase in the number of persons engaged in the sale of oleomargarine during the fiscal year ended June 30, 1894, as well as an increase in the production of the article.

The following table shows the quantity of oleomargarine, in pounds, at 2 cents tax, produced at manufactories during the fiscal year ended June 30, 1894, the quantity withdrawn therefrom during the year, and the stock of oleomargarine remaining in factories June 30, 1894:

AMENDMENTS SUGGESTED TO PRESENT LAW.

The existing laws imposing the tax and regulating the manufacture, sale, and exportation of oleomargarine are deficient in many respects. A reenactment of the laws would, no doubt, be the wisest and most effective way of correcting the existing defects; but if that is not practicable I renew the recommendations in my report of last year, that the following amendments, which are regarded as of most importance and which were suggested by my predecessor in his annual report for the year ended June 30, 1892, be enacted:

"Section 3 of the act of August 2, 1886, defines a retail dealer in oleo-"margarine to be 'every person who sells oleomargarine in less quanti-"ties than 10 pounds at one time,' whereas section 6 of this act provides "that 'retail dealers in oleomargarine must sell only from original "stamped packages in quantities not exceeding 10 pounds.'

"To reconcile the two sections, section 6 should be amended by strik-"ing out the words 'not exceeding,' and inserting in lieu thereof the "words 'less than.'

"As a wholesale dealer in oleomargarine is defined to be a person "who sells it 'in the original manufacturer's packages' (section 3, act "August 2, 1886), and it is further provided that 'all sales made "* * * by wholesale dealers in oleomargarine shall be in original "stamped packages,' persons who sell more than 10 pounds, not in the "original stamped packages, can not, as the law stands, be required "to pay special tax as wholesale dealers; nor is there any criminal "provision of the statutes directly reaching such cases.

"If it be deemed unadvisable to change the law which confines a "wholesale dealer in oleomargarine to selling only 'original stamped "packages,' then the sale of 10 pounds or more, not in such packages, "should be made a criminal offense by an amendment to section 6 of "the act.

"Section 41, act of October 1, 1890, requires wholesale dealers in oleo-"margarine to keep books and render returns in compliance with the "regulations, but no penalty for violation of this section is provided "for therein; and in view of recent decisions of the courts, it would "seem that a penalty clause, directly accompanying the provisions of a "statute requiring certain acts to be done, is essential to an effective "enforcement of the law.

"It is suggested that the last sentence of section 6, act of August 2, "1886, be stricken out and the following inserted:

"'Every person who knowingly sells, or offers for sale, or delivers or "offers to deliver, any oleomargarine, in quantities exceeding 10 pounds "at one time, otherwise than in the original stamped packages, and "every retail dealer in oleomargarine who sells or offers for sale, oleo-"margarine otherwise than as herein required, or delivers or offers to "deliver oleomargarine in any other form than in new wooden or paper "packages as above described, and every manufacturer, dealer, or other "person, who packs in any package any oleomargarine in any manner "contrary to law, or who falsely brands any package, or affixes a stamp "on any package denoting a less amount of tax than that required by "law, shall be fined for each offense not more than $1,000 and be "imprisoned not more than two years.'

"The third clause of section 3 should be amended by applying the "provisions of that clause of section 3244 of the Revised Statutes "relieving from liability to special tax persons selling oleomargarine as "executors, administrators, or in any other fiduciary capacity.

"Section 5 should require every manufacturer of oleomargarine to "file with the collector of the district a description of the premises "constituting his manufactory, and that no business shall be carried "on on those premises except the manufacture of oleomargarine or "of other substances necessary for and to be used exclusively in the "manufacture of the oleomargarine produced thereon.

"Section 6 should be amended by requiring that all oleomargarine "intended for consumption or sale in this country should be packed as "required by that section. The same section should provide that all "oleomargarine intended for exportation to a foreign country should "be packed in wooden or metallic tubs or other vessels, as prescribed "by the Commissioner of Internal Revenue, with the approval of the "Secretary of the Treasury.

"Section 16 should be amended by striking out the clause in the third "and fourth lines 'without affixing stamps thereto,' thus giving the "Commissioner, with the approval of the Secretary of the Treasury, "authority to prescribe *export stamps* to be affixed to packages intended "for exportation.

"The last clause of the same section should be amended by substitut-"ing for the words 'export oleomargarine' the words 'remove from the "place of manufacture oleomargarine for exportation,' so as to require "the package intended for export to be branded by the manufacturer "before or at the time of removal.

"I think there should be a penalty denounced in section 16 for failure "to brand packages of oleomargarine intended for export as required in "that section."

In my report of last year I suggested the propriety of a reduction of the special taxes imposed upon wholesale dealers ($480) and retail dealers ($48) to $120 and $12 per year, respectively. This suggestion was based on the belief that the present rate of taxation is exorbitant compared with special taxes imposed upon other occupations, and that the proposed reduction would not result in loss of revenue. I am still of opinion that such reductions should be made.

THE SUGAR BOUNTY DIVISION.

The Commissioner of Internal Revenue has been charged with the execution of the law providing for a bounty on sugar of domestic production at the rate of 2 cents per pound on sugar testing not less than 90°, and 1¾ cents per pound on sugar testing less than 90° but not less than 80°, by the polariscope. The bounty, which became available July 1, 1891, was authorized by the tariff act approved October 1, 1890, which was repealed by the tariff act in force August 28, 1894.

The sugar producers in this country may be divided into four classes relative to the kind of raw materials used, namely: Cane-sugar producers, beet-sugar producers, sorghum-sugar producers, and maple-sugar producers. The cane sugar, constituting the great bulk of the domestic sugar, is produced in the South, mainly in Louisiana; the beet and sorghum sugars are the products of the West, and the maple sugar is produced mainly in the States of Vermont, New York, Pennsylvania, and Ohio.

Tabulated statements, showing in detail the operations of each of these four classes of producers and their locations by States, will be given in the following pages.

As required by the bounty provisions of the tariff act of 1890, above referred to, each sugar producer intending to claim bounty has filed, prior to July 1 of each year, with the Commissioner of Internal Revenue, a notice of the place of production, with a general description of the machinery and methods of manufacture to be employed, and an estimate of the amount of sugar proposed to be produced up to the end of the next ensuing fiscal year, including the number of maple trees to be tapped in that period. Each notice has included an application for a license to produce sugar under the bounty provisions of the law, and has been accompanied by a bond in a penal sum equal to at least one half the bounty estimated to be earned at 2 cents per pound during the next ensuing fiscal year; the penalty in no case, however, having been less than $100, and always conditioned on the faithful observance of the laws, rules, and regulations pertaining to bounty on sugar. Upon approval of the notices, applications, and bonds of the sugar producers, licenses have been duly issued to them by this office.

During the fiscal year ended June 30, 1894, 6,349 licenses were issued to domestic sugar producers intending to claim bounty on their product, and $12,100,208.89 net, after deducting refundments, were disbursed by this office in payment of approved bounty claims. During the fiscal years ended June 30, 1892, and June 30, 1893, $7,342,077.79 and $9,375,130.88, respectively, were disbursed as bounty on sugar, making with last year's bounty, a total disbursement of $28,817,417.56, exclusive of administrative expenses incurred in executing the bounty law.

Estimating the production of maple sugar at 32,000,000 pounds per annum, and basing the production of cane, beet, and sorghum sugar on the official weights thereof, it is found that the total domestic sugar production during the fiscal year ended June 30, 1892, amounted to 412,893,230 pounds. The next fiscal year it increased to 515,250,769 pounds, and during the fiscal year ended June 30, 1894, it further increased to 689,230,790 pounds, which is 66.9 per centum over the sugar production in the first bounty year mentioned.

As will be shown in the following statistical statements pertaining to the maple-sugar production covered by bounty claims, only a small portion of the domestic maple sugar has been produced under Government supervision for the benefit of bounty. A very large number of maple-sugar producers in this country do not make 500 pounds of sugar per annum, which was the minimum annual production on which bounty could be allowed under the late bounty law. Many other domestic maple-sugar producers, who make more than 500 pounds of sugar per annum, have been unwilling to go to the trouble and expense of complying with the late bounty law and regulations.

The work of weighing, sampling, polarizing, and classifying the large quantity of domestic sugar produced under Government supervision for the benefit of bounty; of preparing the prescribed returns of this sugar and keeping proper records thereof, and of the bounty claims based thereon; of examining the bounty claims and returns of sugar producers, and otherwise attending to all details necessary to insure a faithful observance of the law, has required the services of many additional employés during the sugar-producing season, besides the twelve sugar inspectors and the additional clerical force in this office, which have been provided for by law.

The number of extra deputy collectors acting as sugar weighers, and of clerks, messengers, and laborers employed last year on work occasioned by the sugar bounty, and the amounts paid them as compensation and traveling expenses, were as follows, by collection districts:

Name of collection district.	Number of extra employés.	Total compensation paid, including expenses.
New Hampshire (embraces Vermont, New Hampshire, and Maine)	117	$8,116.60
Third district of Massachusetts	1	100.00
Fourteenth district of New York	2	220.84
Twenty-first district of New York	16	2,754.87
Twenty-eighth district of New York	6	1,263.29
Tenth district of Ohio	1	174.50
Eighteenth district of Ohio	18	476.50
Fourth district of Michigan	5	125.00
Twenty-third district of Pennsylvania	3	756.51
Maryland (embraces Maryland and District of Columbia)	5	1,197.95
First district of California	10	4,942.21
Montana (embraces Montana and Utah)	2	621.74
Nebraska	4	1,198.63
Kansas	2	453.25
Louisiana (embraces Louisiana and Mississippi)	210	71,556.30
Third district of Texas	5	1,573.84
Florida	2	697.80
Total	409	96,229.83

To this amount should be added the following expense items:

Miscellaneous laboratory supplies for polarization of sugar	$591.74
Salaries and expenses of 12 sugar inspectors	24,749.28
Salaries of clerical force engaged on sugar bounty work in the office of the Commissioner of Internal Revenue	8,570.00
Total administration expenses	130,140.85

NOTE.—This total does not include the expense of stationery, printing, and binding, nor any extra expense in the accounting offices of this Department on account of the sugar bounty.

CANE SUGAR.

There were 579 licenses issued to cane-sugar producers during the fiscal year ended June 30, 1894, and sugar was produced under 533 of these licenses. Of this latter number 508 were issued for the collection district of Louisiana, embracing the States of Mississippi and Louisiana, with only 1 license for Mississippi; 13 were issued for the third collection district of Texas and 12 for the collection district of Florida.

The total quantity of cane sugar produced during the said fiscal year, so far as the same was officially weighed, amounted to 611,156,922 pounds, of which 597,969,745 pounds were produced in the collection district of Louisiana, 11,882,852 pounds in the third collection district of Texas, and 1,304,325 pounds in the collection district of Florida. The increase in the production of cane sugar during the last fiscal year over the fiscal year ended June 30, 1893, amounted to 156,015,541 pounds, being equal to 34.3 per centum, but the number of licenses issued to cane-sugar producers decreased from 650 to 579, and the number of actual cane-sugar producers from 551 to 495.

The decrease in the number of cane-sugar producers, notwithstanding the large increase in their production, is due to the fact that a number of primitive open-kettle sugar factories are being discontinued from year to year in the collection district of Louisiana, where the sugar production is gradually being concentrated in the hands of the sugar producers possessing the most modern and improved machinery for the manufacture of sugar. Many persons who formerly made open-kettle sugar are now selling their sugar cane, or the sirup produced therefrom, to the sugar producers who possess large factories containing vacuum pans and centrifugals with other modern machinery.

In the fiscal year ended June 30, 1894, the area of land devoted to the culture of sugar cane in the United States was reported to be 289,940 acres, of which 281,667 acres were cultivated in the collection district of Louisiana, 7,060 acres in the third collection district of Texas, and 1,213 acres in the collection district of Florida. These figures show an increase in area of 60,288 acres over the area reported for the fiscal year ended June 30, 1893. It should be observed, however, that this statistical information is not exactly accurate, owing to the great difficulty in obtaining complete and exact reports, especially of the cane and sirup purchased by the licensed sugar producers. Persons who sell cane are generally small planters, who have no exact measurements of their cane lands, but base their reports of area given to the purchaser, and by him to this office, on estimates made from the weight of the cane or the quantity of the sirup produced therefrom. Even some of the licensed sugar producers have no measurements of their cane lands and no scales for weighing their cane. In making their reports to this office they therefore have to estimate the acreage and the weight of their cane, the latter being usually based on the number of cane loads hauled to their sugar factories. The figures given in this report are the most accurate obtainable, and are certainly within a narrow margin of the actual facts in the case.

The sugar cane actually ground and used in the production of sugar is considerably less in area and weight than the total cane cultivated, as shown by the following statements. This is accounted for by the fact that a large quantity of cane is annually reserved for seed and another considerable portion of cane is destroyed by inundation, early frosts, or other mishaps. The sugar cane reserved for seed during the fiscal year ended June 30, 1894, embraced 36,112 acres, according to reports received.

The following statistical statements give the data in detail pertaining to the domestic cane-sugar industry and the bounty paid on domestic cane sugar during the fiscal year ended June 30, 1894.

DISTRICT OF LOUISIANA.

MACHINERY EMPLOYED FOR GRINDING CANE BY THE LICENSED CANE SUGAR PRODUCERS IN THE COLLECTION DISTRICT OF LOUISIANA DURING THE FISCAL YEAR ENDED JUNE 30, 1894.

Licenses issued to sugar producers operating diffusion batteries either with or without cane mills	7
Licenses issued to sugar producers operating cane mills containing from 4 to 14 rollers and propelled by steam power	477
Licenses issued to sugar producers operating cane mills containing 3 rollers and propelled by horse power	15
Total	499
Licenses issued to sugar producers having no machinery of their own for extracting cane juice, but using cane mills belonging to others or purchasing sirup only	9
Total licenses under which sugar was produced	508
Licenses under which no sugar was produced	44
Total issued	552

NOTE.—Some of the cane mills are owned jointly by two or more sugar producers.

MACHINERY EMPLOYED FOR GRANULATION OF SIRUP BY THE LICENSED CANE SUGAR PRODUCERS IN THE COLLECTION DISTRICT OF LOUISIANA DURING THE FISCAL YEAR ENDED JUNE 30, 1894.

Licenses issued to sugar producers operating factories containing vacuum pans and centrifugals	224
Licenses issued to sugar producers using vacuum pans and centrifugals at factories operated by others	63
Licenses issued to sugar producers operating open-kettle factories	141
Licenses issued to sugar producers operating open steam-train factories	66
Licenses issued to sugar producers operating factories containing open steam-trains and centrifugals	4
Licenses issued to sugar producers converting their cane into sirup and also granulating the same at open-kettle factories operated by others	8
Licenses issued to sugar producers using vacuum pans and centrifugals at factories operated by others, for a part of the sirup, the remainder being granulated by the open-kettle process at home	2
Total licenses under which sugar was produced	508
Licenses under which no sugar was produced	44
Total licenses issued	552

NOTE.—It should be observed that the above 508 licenses under which sugar was produced represent only 470 individuals, firms, and corporations. The difference of 38 is caused by the fact that 25 of the licensed sugar producers own two or more sugar factories, each of which is represented by a separate license.

The following is a summary statement of the operations of the licensed cane-sugar producers in the collection district of Louisiana,* and of the amount of bounty paid these producers during the fiscal year ended June 30, 1894:

Refunded on account of errors against the Government discovered in the official weights of the sugar	1,261.61
Net bounty paid	10,869,320.60
Claims involved	3,185

NOTE.—It was found that some of the official weighers in the collection district of Louisiana returned excessive weights of the sugar weighed by them. In such cases the commercial weights upon which the sugar was sold were adopted by this office, whenever obtainable, as a guide in the correction of the erroneous weights returned. When bounty claims had been allowed prior to the discovery of discrepancies in the weights of the sugar, producers were requested to refund the amounts over paid. These refundments to June 30, 1894, amounted to $1,261.61; and since that date the sum of $1,212.54 has been refunded.

THIRD COLLECTION DISTRICT OF TEXAS.

BEET SUGAR.

Seven beet-sugar producers were licensed by the Government to manufacture sugar during the fiscal year ended June 30, 1894.

There was an increase of one producer and of 18,108,008 pounds in the production of sugar, which is equal to 66⅔ per cent + over the beet-sugar production during the fiscal year ended June 30, 1893, amounting to 27,083,288 pounds, against 45,191,296 pounds during the last fiscal year.

As to the method of manufacturing beet sugar, it can be stated that all the beet-sugar producers in the United States use the most modern machinery, consisting of diffusion batteries for extracting the juice from the beets, vacuum evaporators for making sirup, and vacuum pan and centrifugal factories for granulating the beet sirup.

The data pertaining to the operations of the beet-sugar factories, as well as bounty payments on beet sugar, during the fiscal year ended June 30, 1894, are presented in the following tabulated statements:

SORGHUM SUGAR.

The Medicine Lodge Sugar Company, Medicine Lodge, Kans., and the Parkinson Sugar Company, Fort Scott, Kans., were the only sorghum-sugar producers licensed during the fiscal year ended June 30, 1894. These producers are possessed of the most modern machinery for making sugar, consisting of diffusion batteries for extracting the juice from the sorghum, vacuum evaporators for boiling the juice into sirup, and vacuum pans and centrifugal machinery for granulating the sirup.

Kansas is the only State in the Union which is engaged in the production of sugar from sorghum.

The reported production of sorghum sugar in Kansas in the fiscal year ended June 30, 1892, was 1,136,086 pounds; in the next fiscal year it amounted to 1,026,100 pounds, and in the fiscal year ended June 30, 1894, 882,572 pounds were produced.

In addition to the above production, 950 pounds of sugar were made in the State of Minnesota, from sorghum planted for an experiment, in the fiscal year ended June 30, 1893.

The following is a summary statement of the operations of the licensed sorghum-sugar producers and of the amount of bounty paid these producers during the fiscal year ended June 30, 1894:

MAPLE SUGAR.

As a large number of maple-sugar producers in this country have taken out no licenses, and have produced no sugar under Government supervision for the bounty during the existence of the late bounty law, this office can not furnish complete data of the domestic maple-sugar production.

The maple sugar produced during the fiscal year ended June 30, 1892, by licensed maple-sugar producers who submitted reports, amounted to 3,981,953 pounds. During the fiscal year ended June 30, 1893, the domestic maple-sugar production reported by the licensed producers aggregated 7,665,116 pounds.

Complete reports of the maple sugar produced under the bounty regulations during the fiscal year ended June 30, 1894, have not yet been received, and no bounty has been paid on this product. It is learned, however, from the internal-revenue collectors' annual reports of the operations and bounty claims of the licensed maple-sugar producers, that 7,633,036 pounds of maple sugar were produced during the last fiscal year under Government supervision.

As to the weighing, sampling, and polarization of the maple sugar, it may be stated that the sugar was weighed and sampled by deputy collectors, who either called for this purpose at the sugar factories of the producers, or were located at convenient central stations in the maple-sugar districts where the licensed producers would bring their sugar to be weighed and sampled.

The sugar samples from the New England States were sent for polarization to the Government laboratory established at Montpelier, Vt., while the samples from the rest of the maple-sugar producing States were sent to the laboratory of this office for polarization, except during the first bounty year ended June 30, 1892, when a laboratory was also maintained at Syracuse, N. Y., where the samples of maple sugar produced in the State of New York were polarized.

The maple sugar is manufactured by the primitive open-kettle process, and is usually molded into solids of the size and shape of bricks. In this form the maple sugar generally appears in the market and demands a price from 100 to 200 per centum over the price of other sugar.

The bounties paid on maple sugar during the existence of the bounty law have been as follows:

In fiscal year ended June 30—	
1892	$2,465.74
1893	60,119.32
1894	116,121.90
From July 1 to August 27, 1894	354.94
Total	179,061.90

The following statistical statements give in detail the data pertaining to the operations of the licensed maple-sugar producers during the last two fiscal years, as well as the bounty payments on maple sugar during the fiscal year ended June 30, 1894.

NOTE 1.—Four hundred and thirty-six bounty claims, covering 51,147 pounds of second-class sugar, were disallowed, mainly because the claimants had not produced 500 pounds as required by the late bounty law.

NOTE 2.—The total quantity of maple sugar officially weighed and classified amounted to 7,418,770 pounds, which is 236,346 pounds less than the total quantity of maple sugar reported as produced. This discrepancy is caused by errors in the weights reported by the producers and by not presenting all the sugar produced for official weighing.

SUPPLEMENTAL STATEMENT.

AMOUNT OF SUGARS PRODUCED DURING THE EXISTENCE OF THE BOUNTY LAW UPON WHICH BOUNTY WAS NOT PAID.

Official returns and bounty claims on hand show that the following amounts of bounty on sugars produced during the existence of the bounty law were unpaid at the time of the repeal of this law, on August 28, 1894, viz:

On maple sugar	$122,724.21
On beet sugar	86,782.47
On cane sugar	31,232.43
On sorghum sugar	436.00
Total	241,175.11

Of the sugars covered by this amount the following were produced from July 1 to August 27, 1894, viz:

	Pounds.
Beet sugar testing not less than 90°	3,961,267
Beet sugar testing less than 90°, but not less than 80°	431,836
Cane sugar testing not less than 90°	46,604

DIVISION OF CHEMISTRY.

The number of outside laboratories was diminished by three during the past fiscal year, samples heretofore tested at St. Cloud, Fla., and Austin, Tex., being sent to the New Orleans laboratory, and those from Norfolk, Nebr., being tested at Fort Scott, Kans.

As the testing of sugar for bounty purposes ceased with the passage of the recent tariff act (August 28, 1894), all laboratories used solely for sugar work have been discontinued, resulting in the closing of all the outside laboratories, except the one located at San Francisco, Cal., which is chiefly occupied in the testing of fortified sweet wines.

Total	233
Increase over last fiscal year	62

The number of samples of material suspected of being oleomargarine and submitted to this office for decision was greater during the past fiscal year than in any previous year since the passage of the act, except the first year of its enforcement.

Expert testimony in regard to samples was rendered in court in 12 cases during the year.

ADULTERATION OF FOOD AND DRUGS IN THE DISTRICT OF COLUMBIA.

The act of October 12, 1888, "to prevent the manufacture or sale of adulterated food or drugs in the District of Columbia" imposes upon this office the duty of analyzing all samples submitted for decision as to their character. No provision has been made, since the first year of its passage, for increasing the force or equipment of this division, in connection with the execution of the law, and heretofore no such increase has been necessary, as no effort has been made to enforce it, consequently few samples have been presented. In consequence of a more active supervision of the milk supply in Washington by the local health authorities, however, a number of samples of milk were presented to this office during August and September, 1893, for decisions as to their adulteration under the provisions of this law. As the time required for the analysis of these samples and for the rendering of expert testimony thereon in court threatened to interfere seriously with the regular work of the division, revised regulations were issued (series 7, No. 15, revised) providing for the analysis of all such samples by the chemist of the health office of the District of Columbia, under the control and supervision of this office.

Reports were accordingly received from this officer from September, 1893, up to the close of the fiscal year, of the analysis of 17 samples—15 of milk, 1 of butter, and 1 of granulated sugar—all of which were decided to be adulterated and so certified to the district attorney for the District of Columbia. I would suggest, in this connection, that Congress be asked to either provide the facilities necessary for the analysis of all samples in the laboratory of this office, or to so amend the law as to relieve me entirely from any connection with its execution.

I have the honor to be, very respectfully,

JOS. S. MILLER,
Commissioner.

Hon. J. G. CARLISLE,
Secretary of the Treasury.

NOTE.—The following example is given as an illustration of the use that can be made of Table connection with Table E in ascertaining the collections, approximately, for each State and Terri on spirits, tobacco, fermented liquors, etc., for any year from 1864 to 1894, when such informatic desired and a report for that year is not at hand. In the calculation of the percentages there is alv a remainder. Hence, in reversing the process and multiplying the per cent (quotient) by the div the product will not equal the dividend exactly, but it will be so near to it as to answer most pr cal purposes.

The per cent of spirits for Illinois in 1885 was .304346. (See p. 246, Rep. 1890.) The total collect on spirits in the United States that year were $67,511,208 63. (See p. 333, Rep. 1890.) $67,511,208 .304346=$20,546,766.30. The actual collections were $20,546,765.19 (see p. 27, Rep. 1885), showing a ference of only $1.11 between the actual collections and the collections as obtained by calculation

(*b*) The Territory of Alaska was attached to Oregon December 27, 1872.

* Balance of collections not reported prior to final settlement of the collector's account.

D.—Appendix No. 1, showing the Differences between the Internal-Revenue Collections in the Districts, States, Territories, and Years below named, as Reported by Collectors and Published in the Several Annual Reports of the Commissioner, and the True Collections.

[Note.—These differences were mostly discovered at the final settlement of the accounts of such collectors as have retired from office after the reports for the years in which they occurred had been printed. Hence their appearance in this form.

To ascertain the exact amount collected in any one of the following-named districts, States, or Territories prior to July 1, 1893, add to or subtract from, as the case may be, the collections for that district, State, or Territory, in the "total" column in Table D, the sum or sums entered opposite the same district, State, or Territory in this appendix. The result will be the aggregate amount collected.

On pages 324–327, the signs (+) and (—) are used to denote the amounts to be added and subtracted respectively.]

* A part of the first proviso of section 59, act of July 20, 1868, reads as follows: "A tax of $4 on each barrel, counting 40 gallons of proof spirits to the barrel, shall be assessed and collected from the owner of any distilled spirits which may be in bonded warehouse at the date of the taking effect of this act, to be paid whenever the same shall be withdrawn from such warehouse." This proviso, in effect, makes the tax 60 cents per gallon on 24,383,951 gallons in warehouse at the time of the passage of that act.

† Section 56 of act approved July 20, 1868, provided that all distilled spirits in bonded warehouse at the time of the passage of that act not withdrawn within nine months should be forfeited to the United States. The act of April 10, 1869, extended the time of the withdrawal of such spirits to June *30, 1869, but imposed* a tax of 1 cent per gallon for each month after April 20, 1869. The receipts on *account of this additional* tax were $51,695.27.

NOTE.—The act of July 1, 1862, went into operation September 1, 1862. The act of March 3, 1863, provided that the tax on fermented liquors should be 60 cents per barrel from the date of the passage of that act to April 1, 1864. Hence the tax of 60 cents per barrel having expired by limitation April 1, 1864, the tax of $1 per barrel under act of July 1, 1862, was again revived, and this rate, under different acts, has continued in force from and including that date.
